

*BRUKS's new rotation debarker handles all types of logs at the same time, regardless of size.*

## From energy wood to micro-chips

BRUKS manufactures complete chipping lines for the highest performance and reliability needs. Our heavy-duty machinery can cope with the toughest conditions.

Log decks, elevators, rotation debarkers, conveyor systems, disc and drum chippers for a full range of chip sizes (from long to micro). ROTOM bark hogs.

Complete processing lines converting logs to chips for pellet raw material or other as well as fuel bark.
