

# Circular Overpile Stacker Reclaimer

The Circular Overpile Stacker Reclaimer, COSR is the workhorse of our Stacker Reclaimer product line. With COSR installations dating back to the mid 70's this product is well proven for a large variety of bulk materials. The BRUKS Rockwood Circular Stacker Reclaimer designs provide an excellent method of automated storage pile building and reclaiming for most bulk materials. Cost effective small or large storage volumes can be achieved. Dust and particulate emissions are minimized through the addition of the stacker luffing option on the COSR. Where covered storage is required please reference the BRUKS Rockwood Closed Storage Systems. Our Circular Stacker Reclaimers are also well suited for linear buildings and domes.

**TECHNICAL DATA**

Capacity	Angle of Repose	Diameter	Height
1 Million ft <sup>3</sup> (28,000 m <sup>3</sup> )	45 Degrees	260 ft / 79 m	53 ft / 16 m
2 Million ft <sup>3</sup> (56,000 m <sup>3</sup> )	45 Degrees	324 ft / 98 m	68 ft / 20 m
3 Million ft <sup>3</sup> (84,000 m <sup>3</sup> )	45 Degrees	376 ft / 114 m	79 ft / 24 m
4 Million ft <sup>3</sup> (112,000 m <sup>3</sup> )	45 Degrees	400 ft / 121 m	85 ft / 25 m
5 Million ft <sup>3</sup> (140,000 m <sup>3</sup> )	45 Degrees	436 ft / 132 m	95 ft / 28 m
6 Million ft <sup>3</sup> (168,000 m <sup>3</sup> )	45 Degrees	442 ft / 134 m	97 ft / 29 m
